

Murphy Wall Beds are Making a Comeback!

No one enjoys clutter. If you're like most people today, organizing your space is crucial to the success of your household and family. Being organized leads to a positive environment and allows you more time to concentrate on the important things in life.

Now is an excellent time to address your space needs with a Murphy Bed. Yes, we said "Murphy Bed". They're back and more popular than ever. Gone are the days of Laurel and Hardy where the beds were portrayed as a fold away trap for your worst enemies. These days the beds are sleek, reliable and built for comfort.

When you're renovating, re-organizing or downsizing, a Murphy Wall Bed will provide a unique solution for your storage needs. During the day a room can function as a TV room, home office, playroom, or whatever your needs require. Simply and quickly the room can be converted into a guest room. A standard mattress creates a comfortable sleep for you or your guests and is easily tucked away into a 16" depth bed cabinet when not in use.

The Murphy Bed Hardware used in today's beds is state of the art. It's a counter-balanced spring system with a lightweight frame which results in finger-tip operation. Whether you're six or eighty-six you're able to open and close the bed with ease.

In addition to the Murphy Bed itself, other furniture pieces can also be designed to function with the bed. For instance, matching side cabinets with wardrobes, drawers, and slide-out night tables allow for storage on either side of the Murphy Bed or a corner desk with overhead cabinetry can be utilized for an office situation. The Murphy Bed systems can be custom designed to best fit your space.

Smaller spaces demand new solutions, storage solutions. Murphy Wall Beds has been creating storage since 1975 using innovative technology and beautifully designed cabinetry. A well executed storage system can transcend form and function into architecture for the art of living better, giving you more room in your life for the things that matter most.
